Github

I'm a proactive and dynamic professional Full Stack Developer with experience in JavaScript, Typescript, React, PostgreSQL among others. I'm passionate about technology, possess skills in problem solving and project management, which allows me to carry out projects effectively and efficiently. I'm constantly looking for new challenges to continue growing professionally and expanding my knowledge in the world of programming.

EXPERIENCE

No Country, Argentina— Full Stack Web Developer— *June 2023 - Present*
- Creation of diverse projects in collaboration with development teams composed of 6 to 10 individuals, aiming to carry out large-scale ventures that are economically viable.
- Creation of highly scalable applications that successfully handled large volumes of traffic, increasing website traffic handling capacity by 50% and resulting in a 30% improvement in user satisfaction.
- Presented project updates to Product Owners using Scrum methodology, facilitating effective communication and ensuring alignment with project objectives, driving the successful delivery of milestones and exceeding client expectations.

Technological Stack: JavaScript, Typescript, API Rest, GraphQL, ReactJS, NextJS, NodeJS, Express, HTML, CSS, PHP, Laravel, Docker, Firebase, MongoDB, PostgreSQL.

Cheers, Spain— Full Stack Web Developer — *March 2023 – July- 2023*
- Spearheaded the development of a highly efficient and intuitive service app for a startup, resulting in a seamless user experience and a 30% increase in customer satisfaction scores.
- Focused on the development of a highly scalable commerce application that successfully handled a 50% surge in website traffic and a 40% increase in transactions, driving significant revenue growth.
- Implemented a range of cutting-edge tools and technologies to enhance the app's functionality and user experience, resulting in a 20% reduction in user onboarding time and a 25% increase in user engagement.

Technological Stack: Typescript, React, Redux Toolkit, Firebase, Tailwind, Stripe, Trello, Nodemailer, Toastify, Sweet Alert, QR code generator.

EDUCATION AND TRAINING

Henry, Argentina— Full Stack Web Developer — *November 2022 – 2023*
- Henry Boot camp, LATAM.
- +800hs of theoretical and practical courses.
- Developing several projects.

Technological Stack: Typescript, React, Redux Toolkit, NodeJS, ChartsJS, Firebase, PostgreSQL, Express, Tailwind, Stripe, Trello, Nodemailer, Toastify, Chatbot, Sweet Alert.

PROJECTS

LISTO PARA LLEVAR, Argentina— Backend developer— *August 2023 - September-2023*
- This project aimed to address a pressing issue: food waste. The application's primary focus was to establish a sustainable marketplace for surplus food, simultaneously reducing waste and providing support to local restaurants.
- The user experience has been designed to be intuitive and accessible, with a focus on simplicity and efficiency, enabling both consumers and businesses to achieve their goals quickly and effectively.

Technological Stack: Typescript, GraphQL, ReactJS, Redux, Nodemailer, Tailwind, API Rest, PHP, Laravel, Postgres, Mercado Pago.

Pet Society, Argentina— Full Stack Web Developer — *June 2023 – July- 2023*
- An innovative application with the aim of connecting people with adoptable animals, providing resources for finding lost pets, and offering a wide range of pet-related services.
- This application was centered around improving the lives of pets and their owners by providing a comprehensive platform.
- This made the application versatile and user-friendly, catering to a variety of user needs.

Technological Stack: Typescript, React, Redux Toolkit, Firebase, Tailwind, Toastify, Sweet Alert, Nest.js, Api Rest, Postgres, Docker.

Cheers, Spain— Full Stack Web Developer — *March 2023 – May-2023*
- Led the development of a transformative application that has significantly enhanced the customer experience at Cheers.
- This app allows customers to place orders and complete payments seamlessly through the Cheers online payment platform.
- The key innovation of the app lies in its ability to generate a unique QR code for each order.
- This project not only empowered Cheers to offer a more convenient and efficient ordering process but also provided venues with valuable tools to optimize their service.

Technological Stack: Typescript, React, Redux Toolkit, Firebase, Tailwind, Stripe, Sweet Alert, QR code generator.

Simple Service, Argentina— Frontend Developer — *March 2023 – April-2023*
- Participation in an agile development team with three-week sprints, presenting progress to a Product Owner on the development of a complete application that has had a transformative effect on how users access a diverse range of services.
- Our agile methodology allowed us to respond swiftly to changing user needs and market demands.

Technological Stack: JavaScript, React, Redux Toolkit, Firebase, Tailwind, Stripe, Sweet Alert, ChartsJS, Chatbot, Nodemailer, PostgreSQL, Node.js, Express.

SKILLS

Programming languages: JavaScript; Typescript; PHP.

Frameworks: ReactJS; NextJS, NodeJS; NestJS; Redux; Redux Toolkit; Laravel; Express. **Database:** PostgreSQL, MongoDB, SQL, Firebase.

Tools: Git, Jira, Trello, Slack.

Agile: Scrum.

Languages: Intermediate: English; Native: Spanish.

CERTIFICATIONS

PERN development– Henry. 2022.

Experience certificate– No Country. 2023.

Build a MERN Application using Next.js– Coursera. 2023.

Building a Dynamic Web App using PHP & MySQL– Coursera. 2023.

Learn PHP Database Connectivity– Coursera. 2023.

APIs in Node.js: RESTful API Backend – Coursera. 2023.

Get started with Jira– Coursera. 2023.

Node Server Backend with Express– Coursera. 2023.
